

Cross Atlantic Commodities Inc.

October 1, 2009

Dear Shareholders:

Many of our shareholders have waited patiently during the course of the last two weeks while rumor and speculation dominated our corporate profile.

Today's shareholder letter will dispel any further speculation and set the course for the Company over the next few months.

One of the most successful entrepreneurs in today's business world, Mr. Steve Jobs, founder of Apple stated:

“Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma - which is living with the results of other people's thinking. Don't let the noise of other's opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary.”

As your CEO I am following my business plan and will not waste my energy or corporate resources on anything else.

First issue: The SEC Investigation and subsequent Lawsuit

1. Yes, we conducted the transactions with those named defendants.
2. Yes we received the funding from those defendants.

The SEC reviewed all of our books and records and I testified before their investigatory committee, without hesitation. When the SEC filed action against the defendants, the Company or Myself was not named in the lawsuit. It has virtually no importance to the future of this Company besides creating rumor and false speculation. I urge all shareholders to move on; we have a company to run, and will we not comment on this again!

Second Issue: Monthly Sales of Re-Juv by Caci

As promised in my prior letter, I am thrilled to report that we sold 485 Anti Aging Systems. We came in just a tad below our 500 unit target, but remember we lost 4 days with the Labor Day Holiday weekend. All in all, the first month of Internet Marketing produced the results we anticipated. Next month commercials will air and funding is in place to increase sales to at least 750 units but we want 1000 units by October 31<sup>st</sup>, 2009.

### Third Issue: Pink Sheet Preferred Listing

In this post “Madoff” era, the government is worried about its exposure and is scrutinizing all applications to the minutest degree. I assure all shareholders that we have filed every document on a timely basis and will be fully transparent to the Pink Sheets. The agency is just double checking information. They do not want to wake up with “egg on their faces”. In the future when we announce a filing, accept the fact that I will deliver what I have promised! It may take some time but we will deliver the desired results.

### Fourth Issue: Reverse Split

Again, many shareholders have speculated on this matter.

The Company has no immediate plans for a reverse split nor a stock buyback. Cash is the lifeblood of the Company at this juncture. If sales dramatically increase we will roll that cash-flow into more advertising and media. We have our snoring product launch set for the middle of the month and attenuate National press release.

I concur with Mr. Jobs that “I have the heart to follow my dreams” and make CXAC a great and wonderful Corporation. One that sells wonderful products to the public and carries itself in an ethical and truthful manner.

Thank You for your continued support.

Sincerely,

Jorge Bravo

CEO / President
